2. How to Install

If you have the installer, you just need to start it. After the game is installed to the device, all you have to do is launch it and use it. (P-Game_VR.apk)

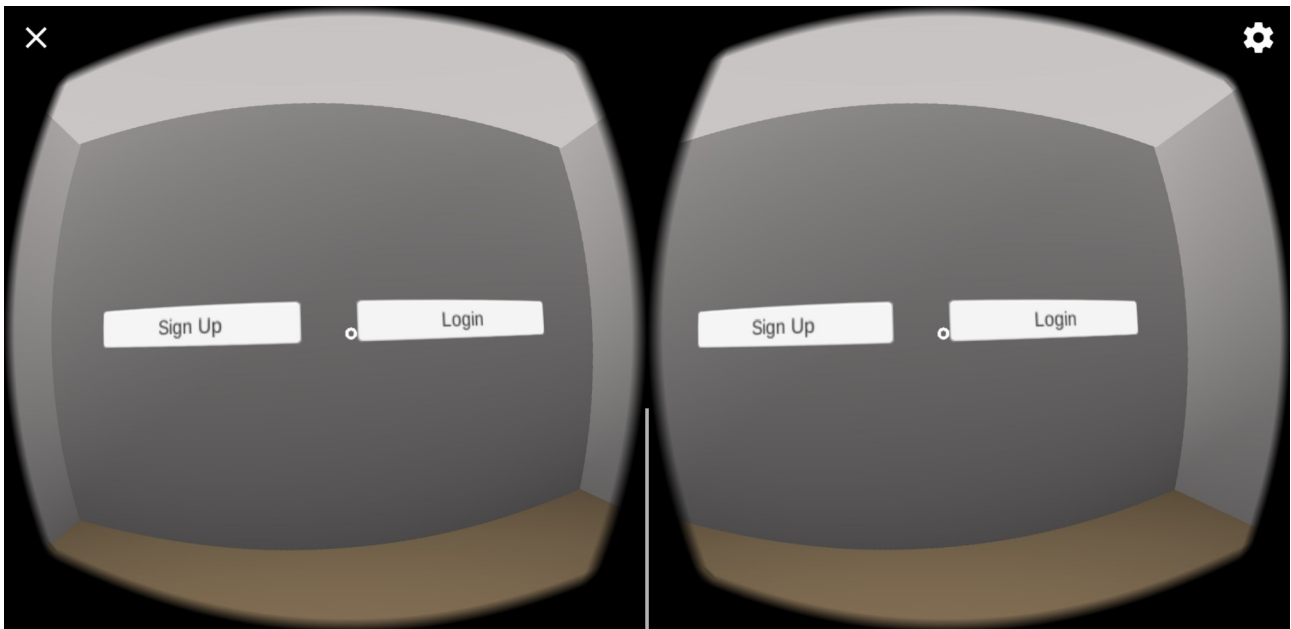

3. How to play

3.1. Launch

After you launched the app, you can see two buttons. One is for the sign up, and one for the login.

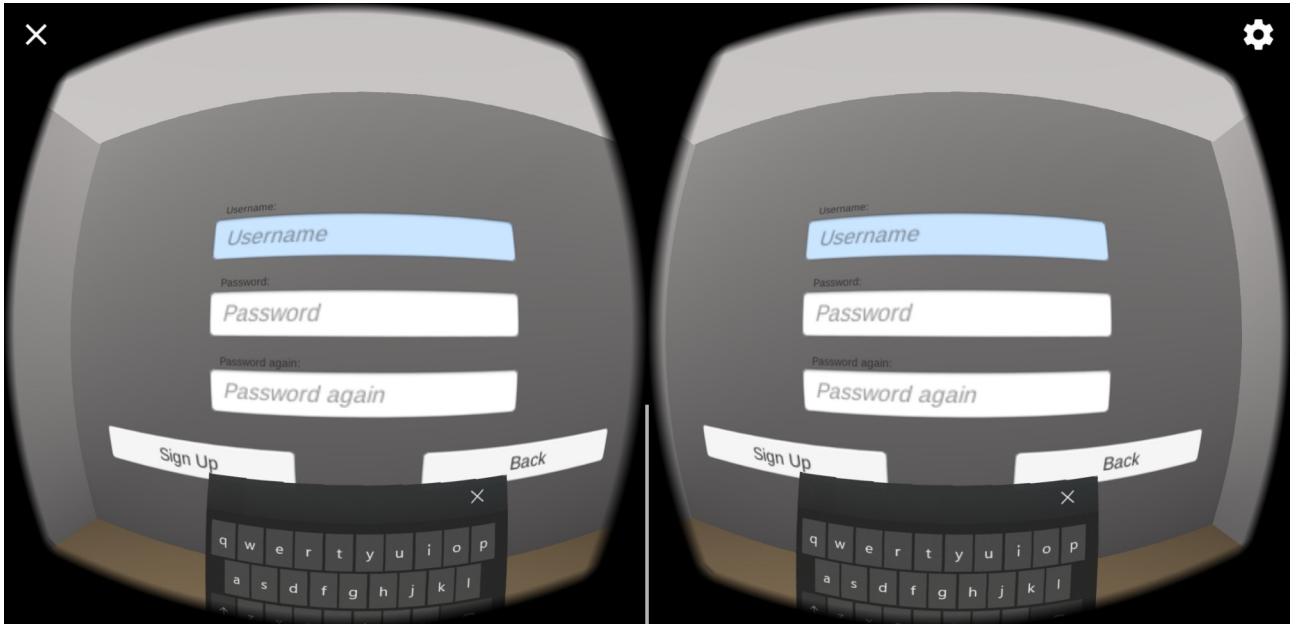

3.2. Log in or sign up

If you do not have an account yet, you need to sign up first. If you have an account, you just need login.

3.2.1. Sign up

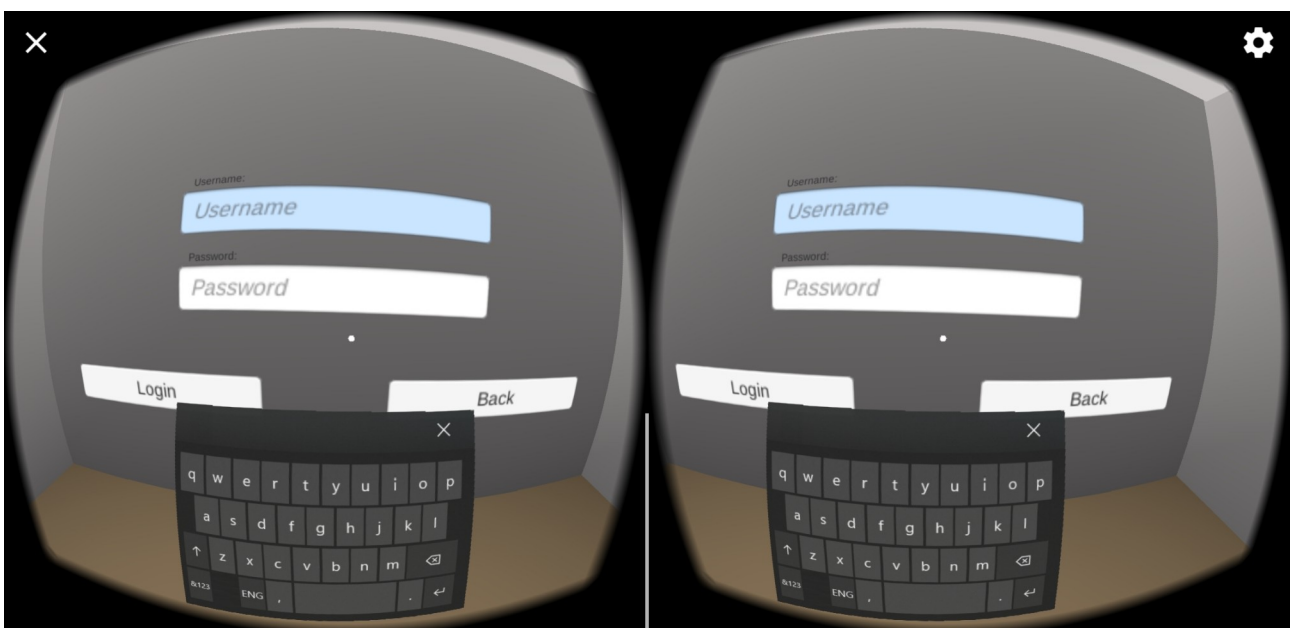

If you want to sign up, you need to fill the input fields, see below.

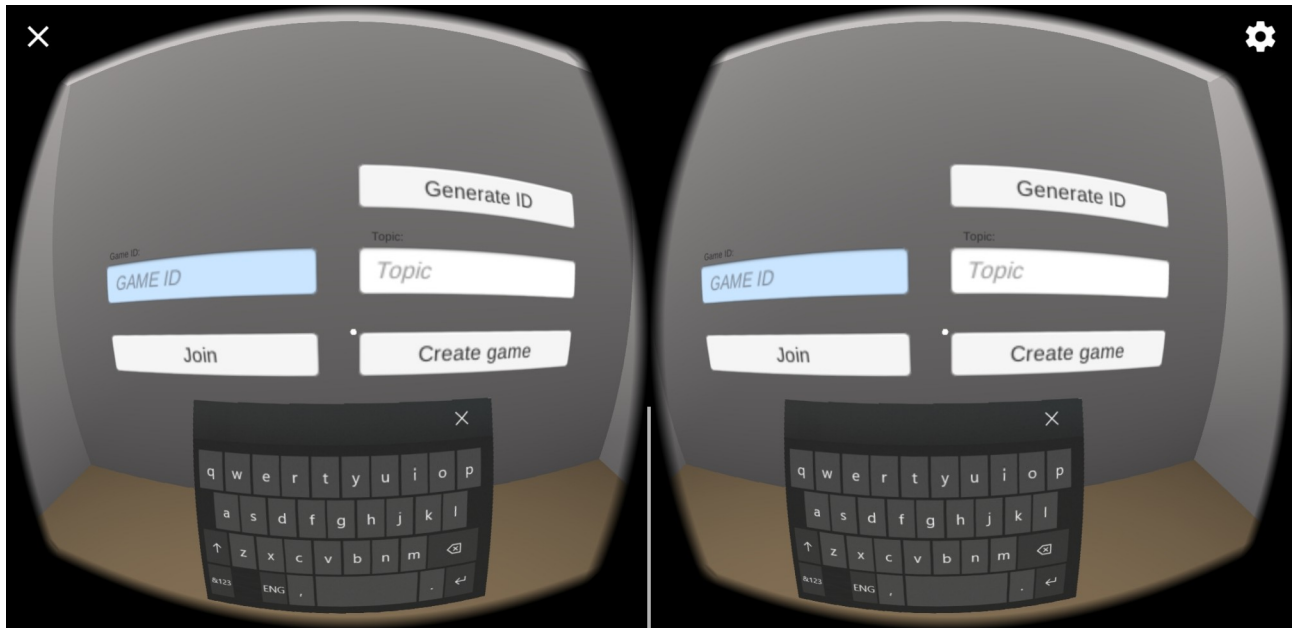

In the second password field is required for check the first password (equality check). Its a safety method for sign up

3.2.2. Sign in / Log in

If you want to log in, you need to write your username and password, then press the login button.

3.3. Create game and join

You can create a game, with the right side of panel. You need to generate game ID with the "Generate ID" button. (The ID will be visible above the button.)

The topic field is an optional input, if you want you can add topic like "Phosphor pollution", "Water pollution" or any other topics but you can left it blank. If its blank, its a non-topic discussion. When you finished with ID and topic, you need to press the "Create game" button.

WARNING: Before you press the create game button, you NEED to write the game id down, because you will not able to see it anymore! And you need to tell the game id to the other players!

If you want to join a game, you need to write the game ID into the "GAME ID" input field and wait until the host create the game. If the host finished, you can join with the "Join" button.

3.4. Choose your avatar

You can select your avatar in this room. There is 16 different avatars with 2 outfit.

You can choose with this panel:

With the two buttons in the right and left side, you can get the next and previous avatar. Moreover you can choose gender "Female / Male" button, it depends the current gender. (There is two gender in this game, because of resources.) You can choose the outfit too with the "Casual / Elegant" button.

3.5. After you joined

When you are joined, you need to wait a few minutes to connect the server. If you are not connect to the game, and you are waiting minutes, the connection is corrupted. You need to restart the game, and join again. (Internet connection required.)

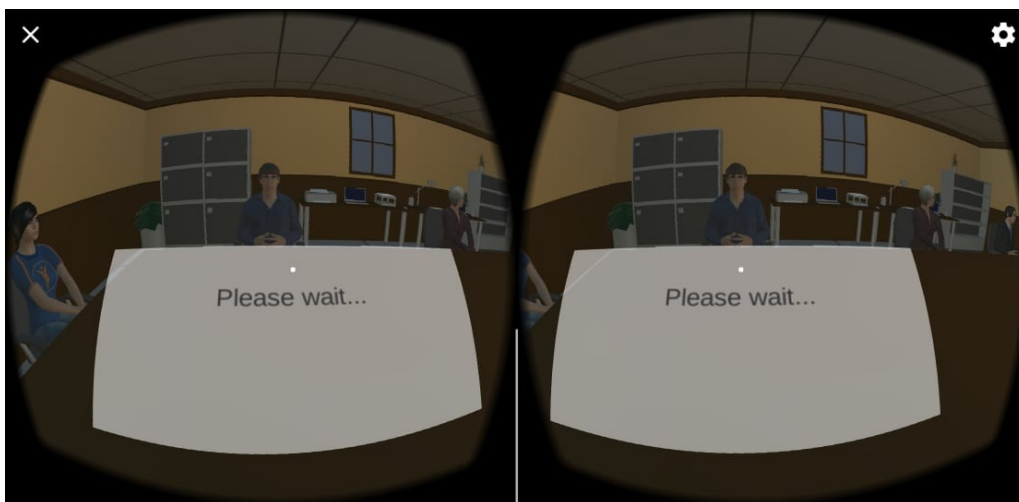

3.5.1. The host

When you are successfully joined and you are the host, you will see the next panel: (if you press the start button, the game will be start. Do not press the start button before all players are joined, because they will not to be able to join anymore!)

3.5.2. Other users

If you are not a host, you need to wait until the host starts the game!

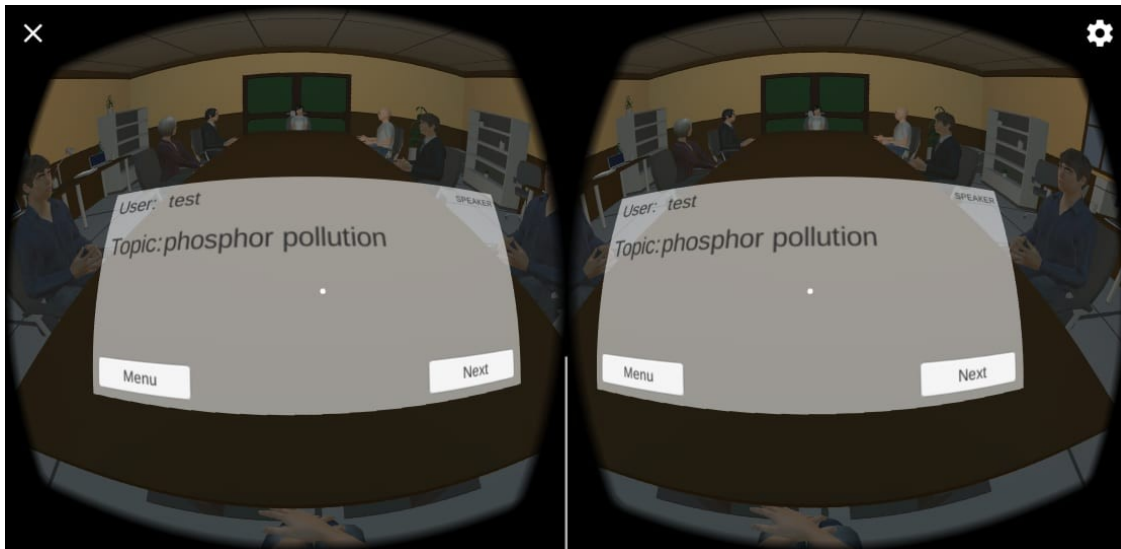

3.5.3. Menu

After the game starts, you will see a "Menu" button. You can leave or go back to the game.

3.5.4. Current speaker

The current speaker will see this panel. In this panel, you can see your name, the topic and two buttons. One is the menu, and the other is the "Next" button.

The "Next" button will give the current speaker role to the next player. Do not press it while you not finished, and they are not rate it.

3.5.5. Not speakers

You need to listen the current speaker, and need to rate what the speaker said.

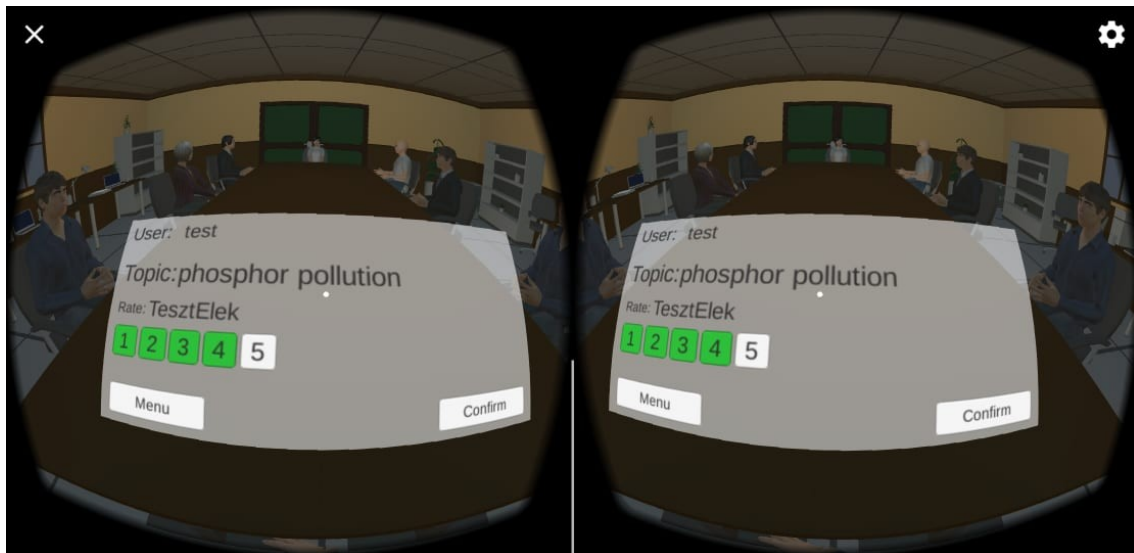

You can do this with this panel. After you pressed the rate number, you need to confirm it with the button. If you confirmed your rate, you can not change it!

Rating:

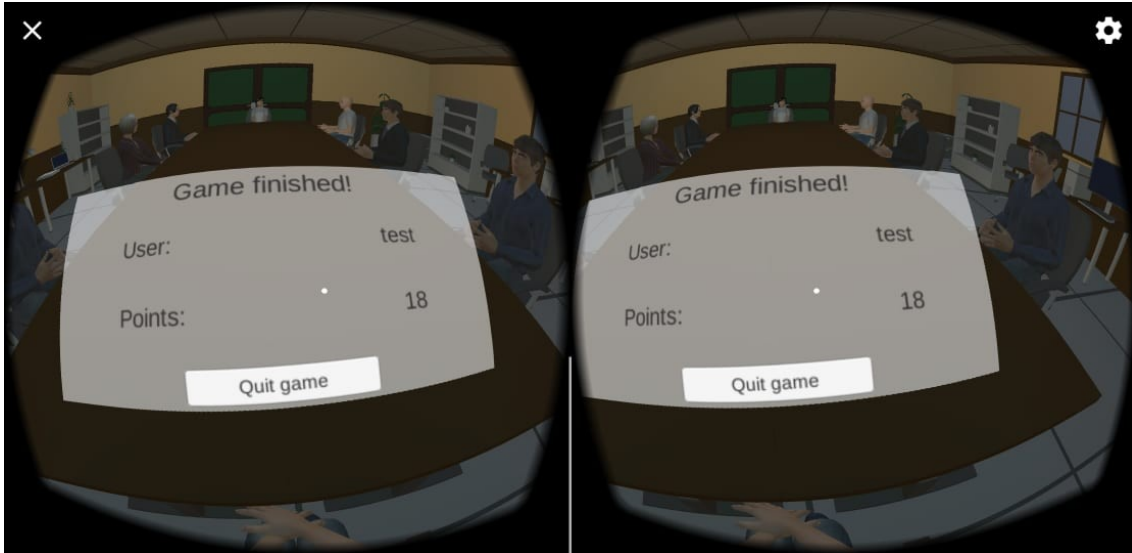

Confirm:

3.5.6. Game over

When all the players are finished with the discussion and the last player is press the "Next" button, this panel will be visible with the player name and the score.

The scores are added to their scores earned in the previous game!
